NOTES:

- For any product not listed above, contact MaxLite for warranty information.
- Any products marked as Clearance shall carry the lesser of a 5 Year warranty, or the warranty period stated on the product data sheet.
- All 10 Year warranties are based on a maximum 16 hrs/day operation, and ambient temperature of -29°F to 104°F (outdoor) and -4°F to 77°F (indoor), and include up to a \$25 labor allowance per item (registration for labor allowance required). If ambient temperatures fall outside the -4°F to 77°F range, product is warranted for 5 years according to the operating temperature range specified on the PDS.
- Extended warranty coverage may be purchased for products with a 5-year warranty, or for a higher labor allowance on products with a 10-year warranty. Standard warranty terms and conditions apply. Contact your MaxLite representative for product eligibility and pricing. Minimum purchase and site registration required.
- Warranty start date is the earlier of the actual installation date, or 90 after the original purchase (whichever comes first).
- It is not a requirement to register the warranty to receive product replacement warranty coverage; however, you must register the warranty if you want to be eligible to receive the labor allowance associated with the 10 Year Warranty.
- Accessories and emergency battery backup excluded. Motion sensor and Photocontrol components follow supplier's warranty.
- Warranty claim and registration forms, and complete Standard Product Warranty Coverage Terms and Conditions, are available at: www.maxlite.com/warranties
